REPORT OF COUNCIL

To the Members, at the Annual General Meeting, Wednesday, February 25th, 1891.

I. SESSION 1889–90.

PUPILS AND FEES.

The entire number of Pupils during this Session was 1523, being a decrease of 57 on that of the preceding Session. Of these 936 were Students in the College, and 587 Pupils in the School. Of the Students, 353 belonged to the Faculty of Medicine, 97 being new Students: in the Faculties of Arts and Laws and of Science there were 583 Students, 346 being new Students. The largest number of Boys in the School in any one Term was 490.

As compared with the preceding Session these figures show a decrease of 6 Students in the Faculty of Medicine, and a decrease of 8 in the new Students. In the Faculties of Arts and Laws and of Science there was a decrease of 54 Students, and an increase of 13 in the new Students.

The Fees received (exclusive of those for Clinical Instruction) amounted to £26,860 11*s.* 6*d.*, being £568 13*s.* 0*d.* less than in the Session 1888–89.

The details for the two Sessions compared were as follows :—

	1889-90.			1888-89.		
	£	*s.*	*d.*	£	*s.*	*d.*
Faculty of Medicine	5,589	13	6	5,408	11	0
Faculties of Arts and Laws and of Science.....	9,510	18	0	9,461	11	0
School	11,760	0	0	12,559	2	6
	£26,860	11	6	£27,429	4	6

In addition to the above-stated amounts, the sum of £1,977 3*s.* 0*d.* was received for Clinical Instruction in the Hospital, making a total of £7,566 16*s.* 6*d.* paid by Students of the Faculty of Medicine in the Session.

The share of fees paid to Professors, Teachers, and Masters amounted to £18,243 3*s.* 0*d.*

SCHOOL.

The returns which have been laid before the Council show that the discipline of the School remains in a satisfactory state.

The Juliana de Rothschild Prize of £20 for the candidate from the School who should obtain the highest place in the Honours Division at the June Examination for Matriculation in the University of London, was given originally by Mrs. Isaac Cohen in memory of her daughter, the late Baroness Mayer de Rothschild. Since Mrs. Cohen's death her daughter, Miss Lucy Cohen, has offered to continue giving the Prize from year to year. It was awarded last year to A. J. Rodocanachi, who gained the seventh place (with Prize) in the Honours Division.

In 1890 24 pupils passed the Matriculation Examination of the University of London; at the June Examination the seventh place in the Honours Division and a prize of £5 was gained by a pupil of the School.

The following Table shows the number of boys in the School in each of the three Terms of the last five Sessions:—

	1st Term.	2nd Term.	3rd Term.	Average for the year.
1885–86.....	546	550	541	546
1886–87.....	507	511	519	512
1887–88.....	505	500	514	506
1888–89.....	513	514	498	508
1889–90.....	490	483	490	488

From the Tables submitted it appears that 24 boys were entered in the Black Book last Session, the total number of entries being 30.

Four Scholarships, defraying half the cost of admission to the School for three years, will in July be offered for competition among boys between the ages of twelve and fourteen, whether already in the School or not.

II. GENERAL FINANCES.

The excess of expenditure over receipts for the past Session was £494 5*s.* 2*d.*

There was at the end of the Financial year a debt of £4,632 1*s.* 6*d.* on the Building Fund account.

III. THE CURRENT SESSION.

The entries of Students to February 1st, 1891, have been as follows:—in the Faculty of Medicine, 300, of whom 65 are new Students; in the Faculties of Arts and Laws and of Science, 502, of whom 243 are new Students: in the School, in Michaelmas Term, 474, of whom 77 were new pupils; in the present Term, 481, 45 being new pupils.

The College Fees received to February 1st are £4,042 10*s.* in the Faculty of Medicine, and £7,802 0*s.* 6*d.* in the Faculties of Arts and Laws and of Science.

Mr. J. E. Strickland.

PROFESSORSHIPS.

Professor Ray Lankester, having been appointed Deputy Linacre Professor of Human and Comparative Anatomy in the University of Oxford, has resigned the Chair of Comparative Anatomy and Zoology in this College which he had held for sixteen years, and Mr. W. F. R. Weldon, M.A., F.R.S., has been appointed to succeed him. Mr. F. W. Oliver, D.Sc., Quain Lecturer, has been appointed Quain Professor of Botany.

GENERAL APPOINTMENTS.

Mr. R. W. Frazer has been appointed Lecturer in Telugu.

Mr. Lawrence has been appointed Curator of the Anatomical Museum in the place of Mr. Stonham, resigned.

Mr. L. E. Hill has been elected to the Sharpey Scholarship in Physiology vacated by Dr. Halliburton on his appointment as Professor of Physiology at King's College.

EXTENSION FUND.

In view of the pressing necessities of the College, it has been decided to appeal to the public to raise an Extension Fnnd of £50,000.

Further funds are needed to provide for the teaching of new subjects, for the extension of buildings, for new teaching appliances which are rendered necessary by the advance of knowledge and improvement of educational methods, and for the better payment of teachers.

A Committee has been formed with Lord Reay for Chairman to conduct the arrangements for this Appeal.

The urgent requirements of the College for the improvement of its Scientific and Technical teaching are:—1. A new Laboratory for Experimental Physics: 2. A properly equipped Electrical Laboratory: 3. Further accommodation and additional machines in the Engineering School: 4. A collection of architectural models and a School of Architectural Drawing: 5. Additional Laboratory space and apparatus for the work it is contemplated to undertake in connection with the Society for the Extension of University Teaching in London.

PROPOSED REORGANIZATION OF THE UNIVERSITY OF LONDON.

In the last Report mention was made of the Council's acceptance of an invitation from the Senate of the University of London to confer with them on the question of the reconstitution of the University, with a view to its performing the functions of a Teaching University for London in addition to its present functions. In the course of last June the Senate for the first time accepted the important principle maintained by the College, that the University examinations of College Students, including examinations for degrees, should follow the teaching given by the Colleges. These examinations would be separate from the existing open examinations, and would be under the control of a standing committee of the Senate, administering what may be called a London Side of the University. This separation of the examinations has as yet been conceded only in Arts, and in Science exclusively of the Preliminary Scientific Examination for Medical Students: and the Senate have stipulated that a single system of Honours examinations shall remain, as at present, for students on the London Side together with other students. No proposals have as yet [Feb. 4th] been made to the Council of a definite character in regard to Medicine or Law. A representation of the College by three members to be appointed by the Council on the Senate of the University, besides "Faculty Fellows" representing the Professors in this and other institutions admitted as "Constituent Colleges," is also contemplated. The University is understood to be now engaged in negotiations with

other University Colleges, and with the Royal College of Physicians of London, and Royal College of Surgeons of England, and no final conclusion has as yet been arrived at in regard to the matters under discussion, either on the part of the University, or of University College.

BUILDING DEBT.

Although the debt is being gradually decreased by the annual application of about £900 from the income of the Sir F. H. Goldsmid Fund, the Council desire to remind the Members of the College that the sum of £4,632 still remains unsubscribed, and that there is consequently a heavy annual charge for interest and repayment of the debt.

PEEL MEMORIAL FUND.

The income of the Fund in 1890 was expended in the purchase of books, &c., presented to the Working Men's College, London, the Ilkeston Institute, and the Greenwich Mechanics' Institution.

NEW PATHOLOGICAL AND BOTANICAL LABORATORIES.

During the past year the Council have been able to make entirely new and very satisfactory provision for the practical teaching of Pathology and Botany by a re-arrangement of the Birkbeck Laboratory. That part devoted to the teaching of Pathology has been refitted in accordance with the suggestions of Professor Horsley and provides excellent accommodation for about 60 students.

A large room has been fitted up for Histological work in Botany. There is also a well-lighted room for Physiological and Chemical work in the same subject, a dark room which constitutes a valuable adjunct in this branch of Botanical teaching, a private laboratory for the Professor, and a properly heated conservatory on the roof. The old laboratory in the North Cloister has also been refitted, and now serves the double purpose of a Museum and a laboratory for Elementary work.

THE FLAXMAN CASTS.

Acting under the advice of Mr. Poynter and Mr. Maunde Thompson, the Council decided to have the Flaxman Casts thoroughly stripped and cleaned. The work has been satisfactorily carried out under the immediate superintendence of the Chief Mason in the Sculpture department of the British Museum, and the cost has been defrayed out of funds specially left by the late Mr. Crabb Robinson for the maintenance of the Flaxman Hall.

ART LECTURES.

Arrangements have been made for the delivery next May of a short course of Lectures on the Development of Art historically treated, by Mr. J. H. Middleton, Slade Professor of Fine Art in the University of Cambridge.

LIBRARY.

A Supplement to the Library Catalogue has been set up in type as far as the letter G. It contains the Barlow Dante, Grant Literary, Quain Law, Fine Art, and Chemical Library Catalogues, as well as other additions acquired previous to 1887.

A list of additions during 1889 has also been printed, and a list for 1890 is in preparation.

The Council has to thank the Royal Society of London for a gift of 254 volumes of literary periodicals.

Other donations to the Library during 1890 were as follows:—

HOSPITAL.

The Committee again take this opportunity of reminding the friends and supporters of the Charity, that the re-building of the Hospital upon a more modern plan as soon as possible is an urgent necessity.

The amounts received, and promised, for this purpose amount to about £12,000, and the Committee are most anxious to bring up the amount of the "Re-building Fund" to £30,000, in order that building operations may be commenced.

In connection with the Medical and Surgical Staff the Committee deeply regret to record the death of Prof. John Marshall, F.R.S., President of the General Medical Council, Professor of Anatomy in the Royal Academy of Arts, who for many years was a distinguished Member of the Surgical Staff of the Hospital, and at the time of his death was one of the Consulting Surgeons.

The Committee also take this opportunity to record their regret at the premature death of Dr. Cyril Jecks, late Resident Medical Officer.

Mr. W. W. H. Tate was appointed Resident Medical Officer, vice Dr. Jecks, deceased, and Mr. G. B. M. White, Surgical Registrar, vice Mr. Raymond Johnson, resigned.

Eight beds and two cots are now endowed and named, and the Committee venture to call special attention to this excellent method of perpetuating the memory of relatives and friends and of adding to the permanent income of the Charity. The income of £2,000 is considered sufficient for the support of a bed or cot; but the Committee will gratefully receive the endowment by instalments until the full amount has been reached.

A Festival Dinner in aid of the Funds will be held at the Hotel Métropole on Tuesday, 28th April, under the presidency of the Rt. Hon. Lord Reay.

The debt at the close of 1890 exceeded £9,000, and the Committee therefore earnestly appeal for additional Subscriptions and Donations.

Return of Services of the Members of Council from January 1st to December 31st, 1890.
